## FINGER JOINT, WHITE PRIMED INTERNAL MOULDINGS.

The Araucaria Pearl Range is a white primed internal moulding range designed to save you preparation time and painting costs.

### ABOUT THE PRODUCT

Araucaria PEARL has a dual coat priming system with a superior water resistant priming and undercoat system that protects timber and reduces moisture uptake than conventional dual coat systems.

Utilising the latest in UV coat systems, our Araucaria Pearl range is fully envelope sealed.

Incorporating Australian clear plantation grown Araucaria timber and finger jointed to gun barrel straight 5.4m long lengths.

It is then precision machined to both traditional and contemporary profiles. Then the Araucaria PEARL dual coating system is applied, ready for the final coat painting system on site!

### ARAUCARIA PEARL MOULDINGS SIZE CHART

### ABOUT THE RANGE

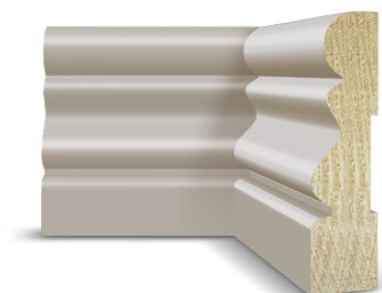

Available in decorative and fit-out profiles:

- Skirting
- Architraves
- Dressed All Round (DAR)
- Dressed All Round PR4 (Pencil Round on 4 corners)
- Internal Door jambs
- Window Reveals
- Trim

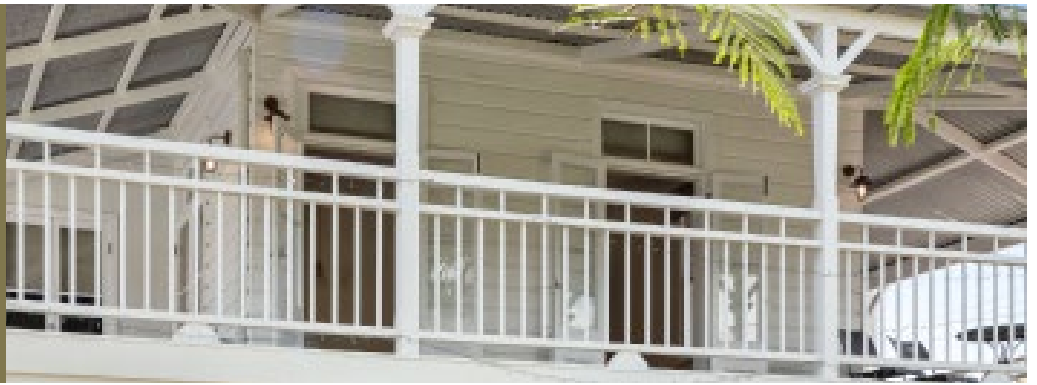

### FEATURES AND BENEFITS

With the Araucaria PEARL range you can be confident that the choice of mouldings will meet your project requirements.

- White Primed to readily accept finishing coats
- Dual Coat Premium finish, ready for top coating following installation;
- Manufactured from sustainable plantation Araucaria
- Available in 5.4 metre lengths
- Contemporary and traditional profiles available
- Commercial or residential application ready

## ARAUCARIA EXTERNAL TIMBER CLADDING.

The Araucaria Gold Cladding range provides a water resistant, undercoat system, providing a long term building solution for your construction.

### ABOUT THE PRODUCT

The Superior Wood Araucaria Cladding range is a water resistant primed, timber cladding that protects the timber and reduces water loss and uptake.

Our Araucaria Cladding range is fully envelope sealed and incorporates Australian clear plantation grown Araucaria timber, finger jointed with an external, structural glue to gun barrel straight 5.4m long lengths.

It is then precision machined to both traditional and contemporary profiles, LOSP Treated to a hazard level H3 for above ground protection from rot, fungal decay and termites. Then the Araucaria Cladding coating system is applied, ready for the final coat painting system on site!

- An acrylic coat that delivers a better seal ensuring less timber movement caused by moisture loss/uptake.
- Manufactured from sustainable, Australian plantation timber.
- Treated against rot, fungal and termite attack with the latest in H3 LOSP preservation technology.
- Excellent water and scratch resistance.
- Hard wearing.
- Environmentally friendly.

### ARAUCARIA CLADDING SIZE CHART

NOTE: Chamfer sizes shown are actual cover widths of the boards. Weather boards sizes shown are nominal sizes. All finger joint material 5.4m lengths.

### PROFILES

Araucaria Cladding range of profiles and sizes.

## SUPERIOR WOOD INTERNAL LININGS AND TRADITIONAL FLOORING

Superior Wood Range of internal linings and flooring are available in a range of sizes and profiles to compliment any building project - whether old or new!

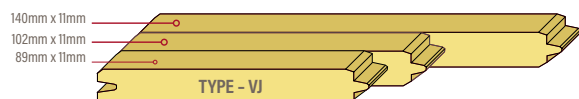

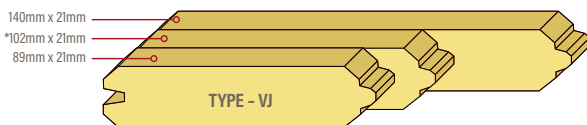

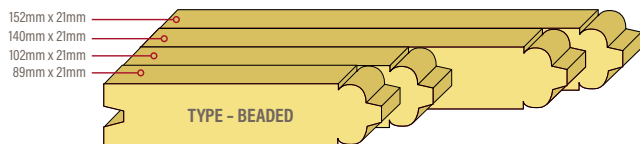

### ABOUT THE PRODUCT

Internal linings are crafted from finger jointed Australian Araucaria and are available in 5.4m lengths or can be manufactured to custom lengths.

Our traditional flooring profiles are manufactured from either a clear one face grade Araucaria or a knotty grade Araucaria.

### LINING PROFILES

# Araucaria STRUCTURAL

Whether for structural integrity or decorative purposes, Araucaria timber offers exceptional quality and versatility, making it an excellent choice for various building needs.

## MGP STRUCTURAL

Superior Araucaria MGP make a cost effective floor joist for use in domestic building applications. Lightweight and available in long lengths Araucaria MGP has an excellent strength to weight ratio making it a natural choice in many structural building applications.

Superior Araucaria MGP is a SD5 strength group and JD4 joint group softwood that has been mechanically stress graded to ensure the structural integrity for the application and spans specified.

**Araucaria MGP lengths available are :** 3.0 | 3.6 | 4.2 | 4.8 and 5.4

**Standard sizes available are:**

35mm x 90 | 140 | 190mm

45mm x 90 | 140 | 190 mm

All MGP products are supplied kiln dried

## BATTENS

Battens are manufactured from Araucaria feature grade and are packed in convenient handyman bundles to allow easy handling. Battens are used in applications such as ceiling battens, job profiling and furniture carcass.

**The sizes available are:**

50mm x 38mm GOS (Green off saw)

47mm x 35mm gauged (supplied kiln dried)

## G.O.S FEATURE GRADE

This grade may contain all the natural characteristics of the tree. These characteristics may include knots, pith, voids and natural discolouration.

G.O.S Feature Grade is ideally suited for end use applications such as furniture carcass manufacture, panelling and speciality box manufacture where the natural character of the grade is a feature in the end product.

G.O.S Feature Grade is available in set length packs 4.8 and 5.4m long.

**Available in the following sizes:**

15mm x 100mm

25mm x 100, 150, 200

33mm x 100mm | 150mm | 200mm

38mm x 100 | 150 | 200mm

50mm x 100 | 150 | 200mm

## DID YOU KNOW:

- Araucaria has long, straight and thin fibres that give a finer grain, smoother finish, higher strength, easier machining and better staining, painting, nailing, bonding and bending abilities compared to Pinus specie.
- Araucaria is the only Australian native successfully grown in large scale plantations
- Araucaria through Superior Wood Pty Ltd is FSC® Certified and sources all araucaria timber locally from Internationally recognised best practice managed plantations.

## Welcome to a place where timeless beauty meets sustainability.

Where timber embodies nature's finest qualities and a rich heritage spanning generations.

Grown exactly where they are meant to be - deep within Queensland's Sunshine Coast Hinterland - our Australian Araucaria forests reflect a deep connection to the land.

Decades of care goes into our slow growth approach putting the planet and the quality of our Araucaria first.

Each piece of our precious timber tells a story of our unwavering commitment to the world we live in. With every tree we harvest, we plant the seeds of tomorrow's forests, nurturing new growth that will stand tall for generations.

That is why you won't find timber like ours anywhere else. As distinctively beautiful as it is unique, our Australian Araucaria timber welcomes you with an unparalleled artistry. Each piece is a master piece of nature, inviting warmth and elegance into your space like nothing else can.

**The mark of  
responsible forestry**

## Araucaria No.1 CLEAR

This is a premium grade. Each piece of No.1 Clears is completely free of defects on all sides except needle trace and the occasional surface blemish that can be machined out.

This grade is suitable for high quality end use applications such as furniture manufacture, internal mouldings, panelling and joinery where a natural clear finish is required.

### Available in the following sizes:

No. 1 Clears are available in set length packs or as short length components cut to customer's requirements.

23.5mm x 100 | 125 | 150 | 200

25mm x 100 | 125 | 150 | 200

33mm x 100 | 150 | 200

38mm x 100 | 150 | 200

50mm x 100 | 150 | 200

No.1 Clears are supplied kiln dried.

**Australian Owned. Australian Made. Australian Plantation Timber.**

## Araucaria No.2 CLEARS

This is a very high grade of Araucaria. Each piece of No.2 Clears is free of defects on one face and two edges, except for minor blemishes that can be machined out. The reverse face may contain any defects or a combination of defects.

This grade is suitable for high end use applications such as furniture manufacture, internal mouldings, panelling and joinery where a clean and natural finish on one face is required.

### Available in the following sizes:

No. 2 Clears are available in set length packs.

23.5mm x 100 | 125 | 150 | 200

25mm x 100 | 125 | 150 | 200

33mm x 100 | 150 | 200

38mm x 100 | 150 | 200

50mm x 100 | 150 | 200

No.2 Clears are supplied kiln dried.

**Australian Owned. Australian Made. Australian Plantation Timber.**

This is a premium grade. Each piece of No.1 Clears is completely free of defects on all sides except needle trace and the occasional surface blemish that can be machined out.

This grade is suitable for high quality end use applications such as furniture manufacture and joinery where a natural clear finish is required.

#### Available in the following sizes:

Components are available in set length packs or as short length components cut to customer's requirements.

23.5mm x 100 | 125 | 150 | 200

25mm x 100 | 125 | 150 | 200

33mm x 100 | 150 | 200

38mm x 100 | 150 | 200

50mm x 100 | 150 | 200

No.1 Clears are supplied kiln dried.

**Australian Owned. Australian Made. Australian Plantation Timber.**

## Araucaria FJ BLANKS

Each piece of this grade is a No.1 Clear grade, produced by joining short clears with a finger joint bonded with cross-linked PVA glue. Each piece of fingerjointed clears is free of defects except minor blemishes that can be machined out.

This grade is suitable for end use applications such as mouldings and picture frame manufacture where a high quality painted finish is required.

### Available in the following sizes:

Fingerjoint blanks are skim dressed and may contain minor stepping at the joints. The standard length is 5.4m but other lengths to suit individual customer requirements are available by arrangement.

23.5mm x 100 | 125 | 150 | 200mm

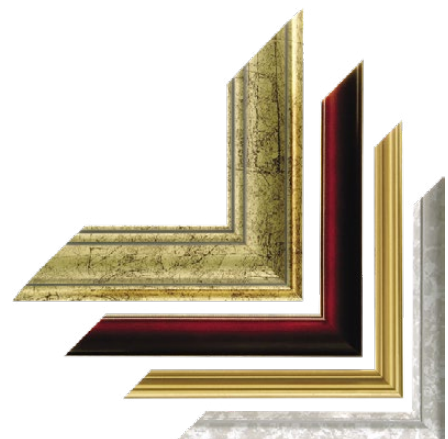

25mm x 100 | 125 | 150, | 200mm

33mm x 100 | 150 | 200mm

38mm x 100 | 150 | 200mm

50mm x 100 | 150 | 200mm

Fingerjoint Clear grade is supplied kiln dried.

**Australian Owned. Australian Made. Australian Plantation Timber.**

## Grown here forever.

Step into a lush, internationally certified plantation forest nourished by the Queensland sun and nurtured by careful hands.

Our Araucaria forests have been intentionally planted to ensure a continuous supply of this uniquely beautiful resource. Thriving in their endemic Queensland environment, these forests stand as a rare gem in a world where plantations can flourish in their natural habitats, complementing the vibrant surrounding ecosystem.
